OATH OF DECLARATION:

ANTI-CELLULITE INTENSIVE THERAPY

Cellulite is toxic fat deposits. The key to reducing cellulite is by increasing circulation, reducing fat tissue volume, detoxifying the body and reducing excess water retention. Many of the herbs in our formula will help simulate the metabolism and assist in burning stored fat deposits; stimulate blood circulation; diuretic effect on excess water retention and detoxify.

The natural fiber body brush is used to brush the infected areas as to stimulate circulation and open skin pores so that the topical essential oils are more efficiently absorbed.

The topical essential oils of 24% concentration, penetrate the skin to the affected areas and help detoxify the fat tissues.

Giovina DiMatteo Leggio
